Dear Mycle,

Please accept my congratulations on your achievement.

As a city, Seattle tries to promote walking both as a way to improve public health and to get where we are going so I appreciate the scale of your undertaking. Your hard work and dedication to achieving a major goal are admirable.

I also recognize your inspiring story and the challenges that stroke and heart disease pose to many of American families each year.

You are displaying citizenship, a commitment to service, strong character and personal fitness. I wish you the best as you continue to raise awareness and offer hope.

Sincerely,

Michael McGinn
Mayor
